

First get gloves because the Obeah Hotfoot powder is very aggressive, it's designed to repel and push away, so whoever touches it can possibly feel the effect if you don't handle with care.

You must first read Psalms 23 before starting, next you take the Green Herbs the Guinea Hen Weed and boil it in fresh water until it becomes a liquid.

Once it's a liquid you can throw away the herbs and only use the liquid because now you got the essence that you needed.

You will use the Liquid to take a spiritual bath for 7 days in a row.
(Read Psalm 23 before every bath)

So after you take your regular bath or shower, you dry yourself off with a towel.

After drying yourself off, you must then pour the bath over your head, from head to toe.

Allow it to run down and touch your feet.

Let it air-dry and as it dries think of yourself as a conqueror and do not have a single thought of a problem or issue in your mind.

Every day you must do this bath 7 days consecutively.

You must take the candle and write the target's name all over it.

If you know the target's birth date, then even better.

If you can get a photo of the target that would be great too, but if you can't don't worry about it.

Burn the candle in one sitting.. reading Psalms 54 once, Psalms 35 3 times and speak the target's name and release the anger over the candle.

Do this without any feeling of regret and what you're doing is conjuring up a spirit of vengeance that will do your bidding.

Nail the horseshoe above your front door by the entrance.

This keeps anything bad or any harm from coming back to you from the work.

Get some charcoal and burn the wood daily on it with a piece of paper with the Target's first and last name written on it, so after 7 days all the wood should be burned.

Use the powder to sprinkle in the shoes of the Target's soles if you can.

If you can't try to sprinkle it in their path, in their car or somewhere that they can't see it but will come in contact with it.

The powder can cause great trauma, and bring them harm so this is why you must handle it with care and it's important to follow these steps.

Sprinkle some of the powder on the wood when burning with the target's name to add some more aggression if you like (that is your choice), but if you're able to make the target come in direct contact with the powder without them knowing then they can instantly face the wrath.

Remember to always handle with care, and let no one know what you're doing.
